**Presents a Regional
Conference to Address
Air Quality: Smart Fuels
& Technology**

March 29, 2006

8:30am to 3:30pm

Pace Law School

78 North Broadway

White Plains, New York

This Conference will bring all stakeholders together, create an open dialogue and educate attendees on the environmental, health and monetary benefits of cleaner fuels and technology. This forum will focus on real-world, achievable solutions. We hope to gain regional support to create a market for the cleanest diesel fuel, and encourage clean air legislation. With such action we will all do our part to improve air quality, meet healthy air standards, and reduce dependence on foreign sources of fuel oil.

We are offering Gold and Silver sponsorship opportunities. Sponsorship benefits will include citation on all conference materials and press releases, display opportunities in the conference expo, and more. Contact hrnavigator@marist.edu or 845 575-3470 for additional information.
