472 Bridgeville Road, Monticello, NY 12701

845.794.8973

Open Wed-Sat at 4:30p, Sunday at 4:00p

Closed Mon and Tues

This is a very serious steak and seafood house. Delicious steaks, vegetables (fresh steamed broccoli), salads, fresh baked breads and the most outstanding lobster! It's set aside a beautiful creek hidden in the mountains off of RT 17. The setting is a very old farm home, and the menu is very simple. It's read out loud by the server (that's how small it is) and every item is prepared to order. The view is breathtaking from the dining room, especially in the fall when the leaves change colors.

# Monticello Raceway Lesson

## 2<sup>nd</sup> Grade Class

- Overview: During this lesson students in the second grade will learn how to make bar graphs using data they collect during the race at Monticello Raceway.
- Procedure: They will attend the field trip at the Monticello Raceway and the teacher will assign them each a partner and a horse to keep track of during the race. They will use their stopwatches to record each lap their horse takes (approximately 2-3 laps depending on the type of race). After the field trip, the students will get back to the classroom and each child will create a bar graph with their partner of the different times they recorded for their horse. Each time will receive a different bar representation on the graph. Then they will all get together and compare each of their times.

## 3rd Grade Class

- **Overview:** Students will take a field trip to Lake Superior State Park. Prior to the field trip, students will be knowledgeable on the seasonal changes that occur in their environment. Students will receive a list of pictures describing the types of leaves they will find while walking through the property. Students will classify and categorize the types of leaves they find. After the students have found most of the leaves on the list, they will be required to trace the leaves on a provided worksheet. The students will have to write a short description stating what tree the leaf come from and the characteristics of the leaf.
- **Procedure:** The class before our field trip, students will learn about the seasonal changes that occur. The students will receive a list of leaves they can find and a bag to place the leaves in. The students will find the required leaves, and then trace them onto their worksheet. The students will then write a short summary about each leaf, and then make a book out of the worksheets.

## 2<sup>nd</sup> Grade Class

- **Overview:** During this lesson students in the second grade will learn how to make bar graphs using data they collect during the race at the Holiday Mountain Ski and Fun Park.
- **Procedure:** They will attend the field trip at the Holiday Mountain Ski and Fun Park and the teacher will assign them each a partner. Each student from each group will go around the go-cart raceway track as many times as they are given per session. Their partner will record on a stopwatch how long it takes them to get around the track for each lap. They will be given a worksheet with a table on it for them to record each of their times. After the field trip, the students will get back to the classroom and each child will create a bar graph with their partner of the different times they recorded for each lap on the go-carts. Each time will receive a different bar representation on the graph. Then they will all get together as a class and compare each of their times.

## 5<sup>th</sup> Grade Class

- **Overview:** Students from a 5<sup>th</sup> grade class will take a field trip to Bethel Woods Center for the Arts, and will partake in the program offered by the Center titled, “Explore the Sixties”. This program’s objective is the following: “Through a scavenger hunt, tour of the Woodstock field, Sixties dance and more, students explore the tumultuous decade of the 1960s.” Since this program is estimated to take up 2.5 hours, there will not be much time left for other activities. Provided there is time remaining, there will be a class discussion on the 1960’s, where students will have the opportunity to voice their opinions on the decade and the events that took place in that time span.
- **Procedure:** Student, teachers, and chauffeurs will arrive at Bethel Woods Center for the Arts, and shortly thereafter the tour will begin. During the tour, students will jot down notes so that they retain the information, which will later be used to aid their homework assignment. Once the program is finished, students will be allowed to re-explore the areas of the museum that intrigued them the most, allowing them to get a head-start on their homework assignment. Before returning to the bus, teachers will ask students which events in the 1960’s played a critical role in the advancement of society, and how. Finally, everyone will get back onto the bus and return to school.

A tour of the facilities includes demonstrations of early settlers' lifestyles and craft making. A gift shop, vending area and picnicking facilities are located on the grounds. Fort Delaware is a representation of the first white settlement on the Upper Delaware River, called **Cushatunk**. Today's Fort represents the development of the settlement over a thirty year period. The original settlers were farmers who came primarily from central Connecticut and were of English descent.

# Kittatinny Canoes & Zip Line Lesson

Adventure Sports Center

## 6<sup>th</sup> Grade Class

- **Overview:** Before students are able to ride on the zip lines, students must first measure the ground below from the starting point to the finishing point. The students will then receive a sheet listing how tall each of the zip line tower, which will provide them with the other side of their right angle.
- **Procedure:** Students will 1<sup>st</sup> measure the ground from the starting point to the next zip line post. Students will then receive a sheet listing how tall each tower is. Students will ride the zip line. Students will complete the worksheet using the formula to find the missing side of the right triangle and the distance they just went on the zip line.
