Thesis

- Although there were no regiments based in Rockland County, they contributed numerous men to the 95th, 141st, 135th, and the 17th regiments. During the Civil War the main industries of Rockland County were beneficial to the immediate war efforts. Rockland County was known for its brick manufacturing industry, printing on the Minisceongo creek, boat building, and submarine chaser production.

Lesson Plan (4th Grade)

- *Overview:* We will be traveling through Rockland County to the following sites while doing activities: Clarksville Inn, the Lincoln Memorial Bolder, the Mount Moore African American Cemetery, the Brick Church, and the Historic Underground Railroad Marker.
- *Models and Learning Styles:* **Cooperative learning:** students will be in groups and will be working with each other to perform certain tasks. **Tactile:** students will be role playing. **Visual:** students will be learning by seeing the sites and observing.

Lesson Plan

- NY Standards:

- Social Studies Standard 1: History of the United States and New York - Students will use a variety of intellectual skills to demonstrate their understandings in the culture, time periods, landscaping and architecture designs used in New York.

- The Arts Standard 4: Understanding the Cultural Contributions of the Arts Students - will develop an understanding of the personal and cultural forces that shape artistic communication and how the arts in turn shape the diverse cultures of past and present society.

Lesson Plan

- Objectives:

For most activities students will be assigned in groups of three

- ❖ Clarksville Inn: Students will be assigned a character during the Civil War and will role play either soldiers and their families visiting the inn, or workers in the Inn who show their gratitude for the soldiers and allow them to spend the night for free.
- ❖ Lincoln Memorial Boulder: After exploring the library, we will visit the boulder and students will write in their groups a short speech about why Abraham Lincoln was important during the civil war and how he impacted our country.

Lesson Plan

- Objectives cont.
 - ❖ Mount Moore African American Cemetery: In their groups, students will be given a scavenger hunt to find all of the soldiers from the Civil War. They will have to write down how old each soldier was when they died.
 - ❖ The Brick Church: Students will role play a church service in which they will say a prayer for the soldiers and for our country to become a union once more
 - ❖ The Underground Railroad Marker: Students will have to draw/color what they believe the underground railway looked like during the civil war with a description of its importance.

Lesson Plan

- Materials: Handouts, costumes, colored pencils, paper
- Debriefing: When we get back to the classroom, we will go over our worksheets and have another discussion on the Civil War and what the students found most important on the fieldtrip. A test will be given on the Civil War including the importance of these sites.

Conclusion

- Although there were no regiments based in Rockland County, they contributed numerous men to the 95th, 141st, 135th, and the 17th regiments. During the Civil War the main industries of Rockland County were beneficial to the immediate war efforts. Rockland County was known for its brick manufacturing industry, printing on the Minisceongo creek, boat building, and submarine chaser production.
- While studying Rockland County, we found it was very difficult to access information. We put our research skills to the test to find the information needed.
